Setting up Baïkal

Some quick guides to get up and running on various calendar clients.

- Connecting to a Baïkal Calendar in Android
- Connecting to a Baïkal Calendar in iOS

# Connecting to a Baïkal Calendar in Android

Instructions

Installing the Required Apps

Install DAVx^5

1. Navigate to the Google Play Store and search for and install DAVx5.
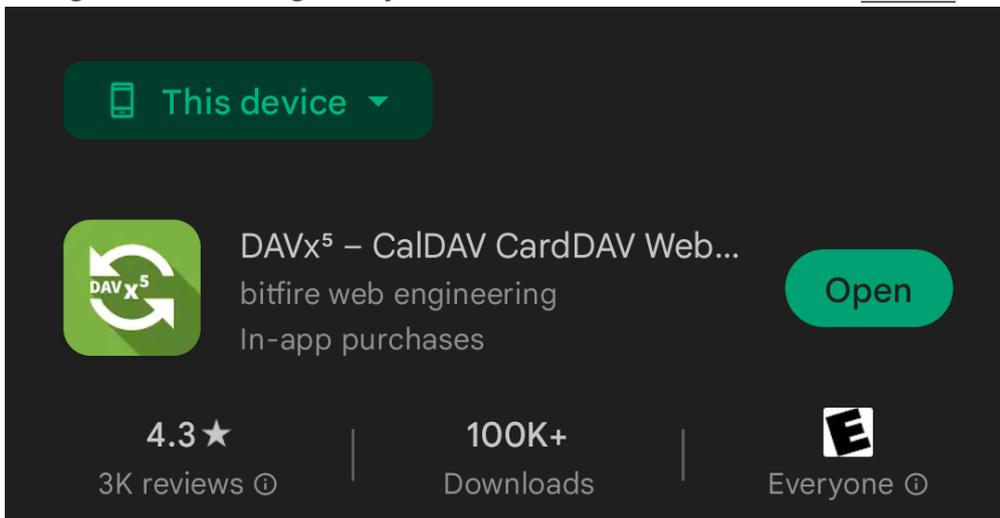

Link the Baïkal with DAVx^5

1. Select "Login with URL and user name".

Generic login

⦿ Login with URL and user name

○ Login with email address

○ Advanced login

Provider-specific login

○ Google Contacts / Calendar

○ Nextcloud

All data will only be transferred between your server and your device. DAVx⁵ will not send them anywhere else. See privacy policy.

Continue

2. Provide the dav.php URL.

   In this example that's https://cal.grey.fail/dav.php, then provide your login credentials for Baïkal.

← **Add account**   ?

Login with URL and user name

Base URL

📁 https://cal.grey.fail/dav.php

The base URL will be checked directly, but services are also discovered using DNS records and well-known URLs.

User name

👤 chris

Password

*** ··· 👁

Login

3. Provide an account name and make sure the "Groups are separate vCards" option is selected.

4. Toggle the calendars you want to synchronize to your phone.
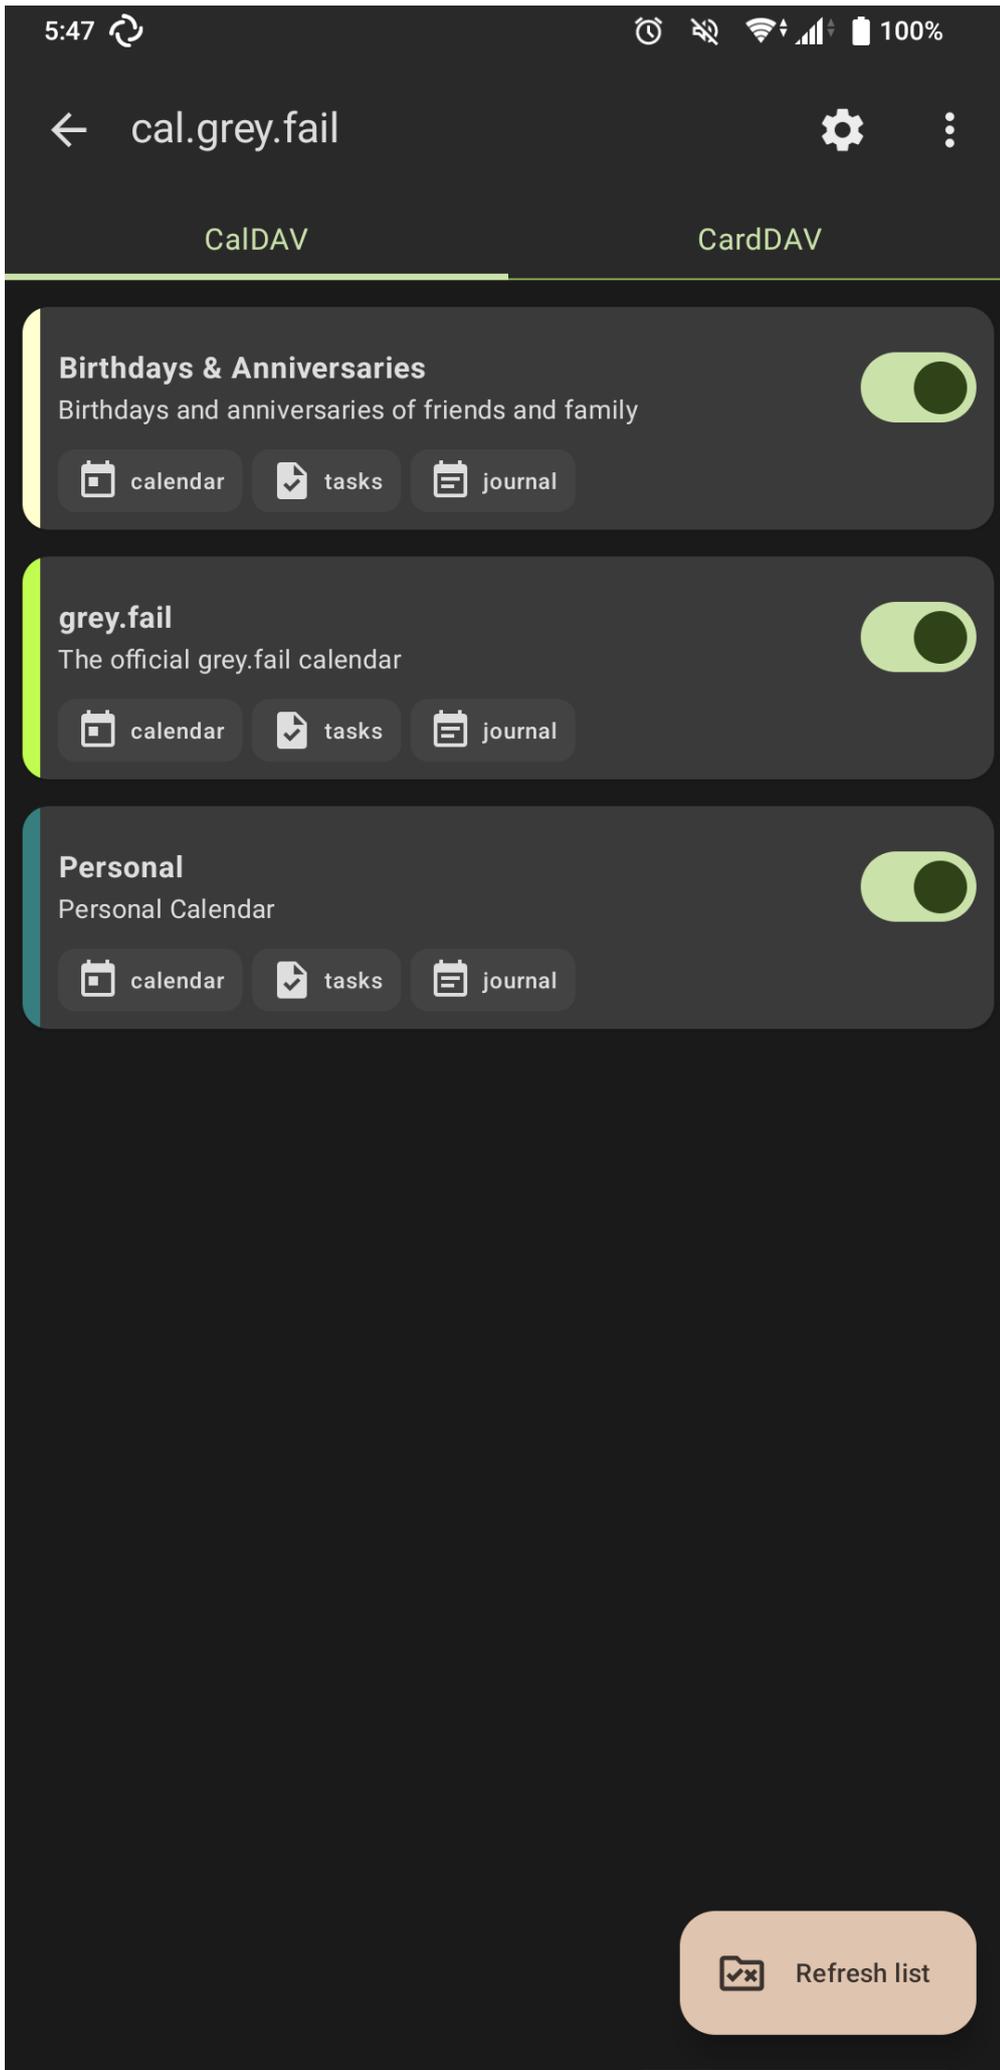

Conclusion

That's it! Congratulations on linking your Android device to a Baïkal shared calendar. Any changes made to the calendar on the device or from another calendar application will synchronize across all linked devices.

Connecting to a Baïkal Calendar in iOS

Instructions

1. Go to Settings ⊠ > Apps > Calendar.
2. Tap Accounts > Add Account.
3. *Add a calendar account:* Tap Other, tap Add CalDAV Account, then enter your server and account information.

   In this example that's https://cal.grey.fail/dav.php, then provide your login credentials for Baïkal.

Cancel   CalDAV   Next

Server   https://cal.grey.fail/dav.php

User Name   allie

Password

Description   Baikal

"Baikal"

| q | w | e | r | t | y | u | i | o | p |

| a | s | d | f | g | h | j | k | l |

| z | x | c | v | b | n | m |

123   space   return
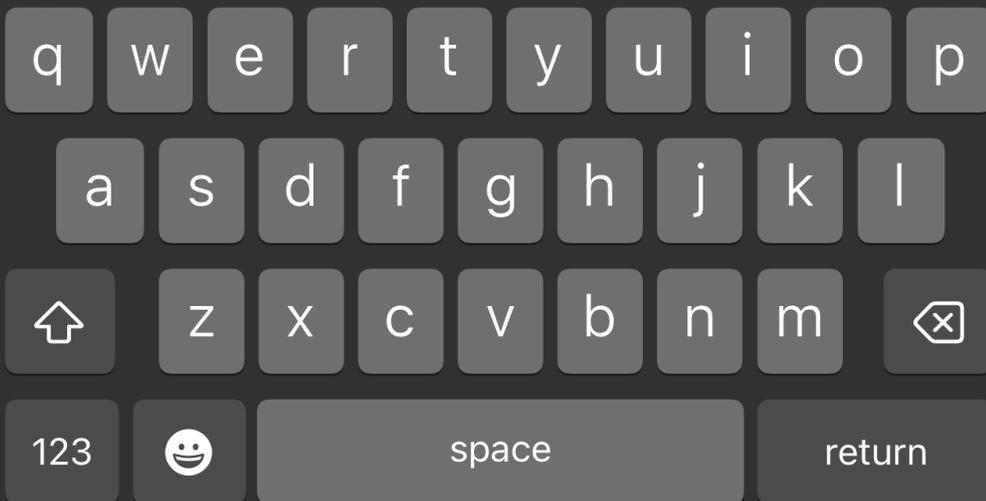

4. After adding the CalDAV account, select "Advanced Settings."

   Under "Account URL" provide the principals URL:

   https://YOUR.BAIKAL.URL/dav.php/principals/USERNAME/

   E.G.:

   https://cal.grey.fail/dav.php/principals/allie/
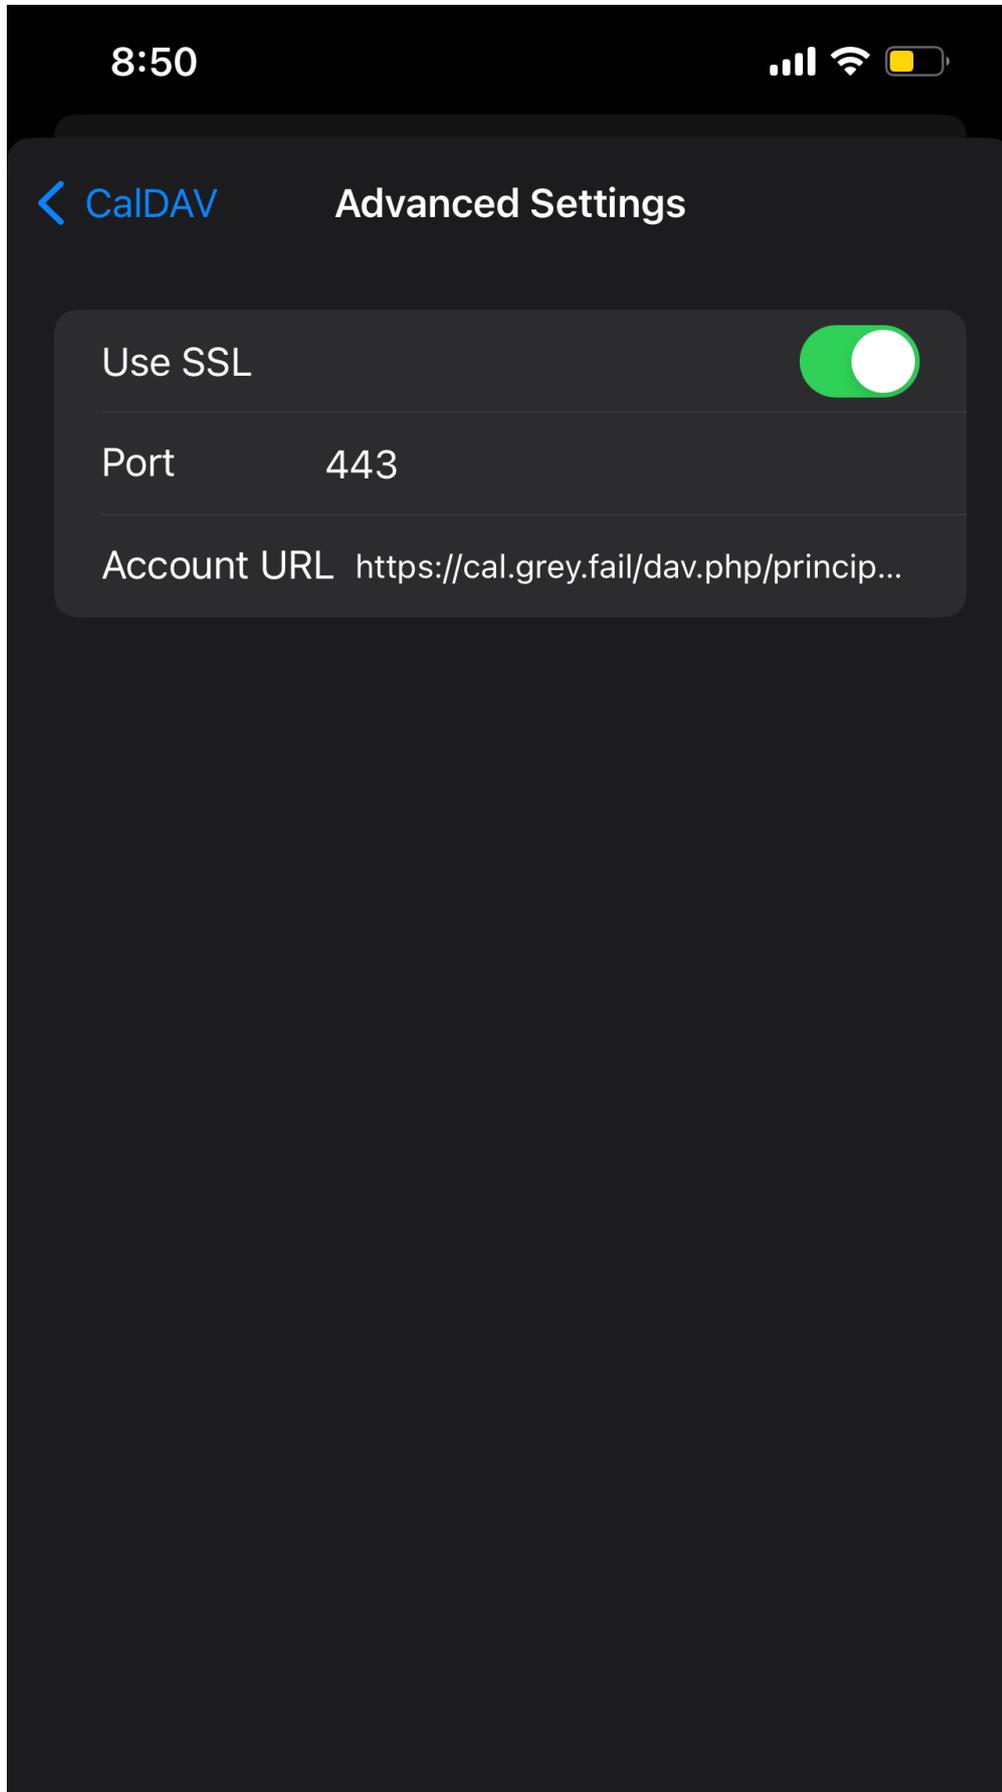

Conclusion

That's it! Congratulations on linking your iOS device to a Baïkal shared calendar. Any changes made to the calendar on the device or from another calendar application will synchronize across all linked devices.
